

First Nation Code Clubs

First Nation Code Clubs provide indigenous kids and youth with opportunities to learn in-demand skills that may not be readily available.

FNCC introduces programming and technology to a new generation of coders who, rather than missing out, will become builders of leading edge applications and their own futures. There is no charge and laptops are provided. The duration is at the discretion of participants however 12 hours minimum is required with up to 30 hours available. Class size will be no more than 20.
